Any Blu-ray Copy not only enables you convert Blu-ray or DVD movie to **High-Definition(HD) formats** (H.264/MPEG-4 AVC, MPEG-2 TS HD Video) but also rip to popular format videos such as AVI, MPEG, DivX, MP4, H.264/AVC, XviD, 3GP, and FLV. And you can enjoy almost any DVD movie and blu-ray video file on most multimedia players including iPod, iPhone, iPad, Apple TV, PSP, Xbox, Zune, Gphone, and BlackBerry mobile phones. It also can help you extract music to mp3/aac.

Main Workplace of Any Blu-ray Copy

1. After installing Any Blu-ray Copy on your computer, launch it and insert your DVD or blu-ray disc into burner. Click **"Load BD/DVD"** button and choose the burner path in the popup window, then wait for Any blu-ray Copy loading the files.
