FAQ:

1. What is the difference between free trial version and registered version?

Free trial version and registered version they have no difference in DVD cloning and DVD ripping functions. The only difference between the two versions is that for free trial version, **only can copy 3 DVD disks and rip 3 minutes of 3 DVD respectively**. While registered version has **no limits and the registration code is valid for good**, which means you can reboot your computer or reinstall the program without any worry. What's more, DVDSmith Inc. provides free upgrade for all the time, which means you can upgrade Any DVD Cloner Platinum to the latest version without paying a cent.

2. I have ordered and paid the program, but I did not receive the license code yet. Why?

1). Because of your Email setting, the letter with license code went to Trash directly. Please look for the letter there.

2). Your Email service provider rejects Emails from unknown senders, so the license code cannot be sent to you.

3). Invalid email address was provided when you ordered the software. If you are under one of the last two situations, please <u>sending email to DVDSmith support team</u> for the issue.

3. I have received the code, what should I do to make the program be registered?

1). Launch the program if the free trial version has been installed; if the program is not installed, download Any DVD Cloner Platinum , install it and launch the program.

2). Click [1], then click "Enter License Code", registration window will pop up:

Register		X
Please input	the registration name and code to register this program.	
Name:		
Code:	1	
	ОК	Cancel

3). Copy & paste your registration name and license code into the blanks respectively.

Note: Do not add any blanks at the beginning or at the end of the name or the code.

4. I make a copied DVD with Any DVD Cloner Platinum, play it on my computer without problems, but it can't be played on my DVD players, why?

Since you mentioned the DVD can be played on computer without problems, it can be confirmed that the DVD is copied successfully with Any DVD Cloner Platinum. Please try to click **(Options**), a window pops up:
